

February 6, 1974

planned that we can have the hearing for these bills on the last day. I think one of the bills we'll remember is Senator Loren Schmit's bill passed, LB477 for catastrophic illness, should be revised to a degree and this is the one bill. Then the other bill would be, let's see, that the public welfare will determine operating expense of the nursing homes and come up with at least a cost of those nursing homes. Another one would be that a person that does draw insurance and might also pass away and have quite a sum of money held over that they should pay part of their welfare expenses or whatever the decision might make. These may be minor bills to some people but they are very crucial to correct the law and do what we feel is necessary. We would like the privilege of introducing these three bills, if you so desire, and we will have the public hearing on February 19. That would be our last day of the hearings. I would ask that these bills be introduced by the Public Health & Welfare and the Committee has signed them.

PRESIDENT: Any further discussion of the motion? Then the question is, shall the rules be suspended for the introduction of the three bills? All those in favor of suspending the rules to introduce the three bills vote aye, all those opposed vote no. You are voting on the motion to suspend the rules for the introduction of the three bills as outlined by Senator Kennedy. That motion still takes 30 votes. Senator Kennedy, what's your choice.. pleasure?

SENATOR KENNEDY: I would ask that the members would cooperate and help us introduce these bills so that we can have a public hearing and give at least the public an opportunity, we feel we have certainly picked out these three out of maybe seven or eight. And we feel they are very important. I hate to ask for a Call of the House, we are short three votes.

PRESIDENT: Senator Duis, for what purpose do you rise?

SENATOR DUIS: Mr. President, I am going to bring up a point here in the rules again. We again have a motion of suspending the rules and doing something. The motion is to suspend the rules to introduce the bills. Fine. Then let's suspend the rules, then let's bring the bills up in the proper order which I believe they should be done, because we have a dual motion again. This is the one we had the problem with the other day.

PRESIDENT: I think the tape will show that my motion this morning, or excuse me, in stating the motion this morning said that we were suspending the rules to...we were suspending the rules...

SENATOR DUIS: I'm sure yours does, but the written coming up there for the motion I believe has an and in it.

PRESIDENT: Alright, I don't know, excuse me, I appreciate your calling to the attention of the Chair and I appreciate also because this does get the message out to the body. But I don't know that the Clerk and the Chair have the right. Well, I guess we do have the right to change the motion and I'll do my best to do that. Senator Duis.

SENATOR DUIS: If necessary, I would ask Senator Kennedy if it was alright to change his motion to two because I'm afraid we're doing something in an improper fashion and I,,,Senator Snyder had this same problem the other day and I'm sure that we probably go back and forth across this and maybe get by with it from time to time, but for one I would appreciate very much, Senator Kennedy
